Experience Letter

Name of the Employee: Mahesh Mhaske

It is to certify that Mahesh Mhaske was employed as Backend Engineer in RadicoSoft Technologies from 13 June 2022 to 15 June 2023.

Mahesh has excellent skills in Node.js development. He successfully developed and maintained several key projects during his tenure ranging from educational, location tracking, EV related apps and more. He was responsible for the backend development and AWS maintenance for most of our projects.

He is professional and polite and explains the problem well. He has been instrumental in solving some critical issues in the projects as well.

We are sure that his passion and dedication will help him excel in whatever he chooses to do next in his life. He has shown a high level of commitment throughout his time with our company.

We wish Mahesh all the best for his future.

Sincerely,

Jeet Singh
